Conference dates: November 16 – 17, 2023
Paper submission deadline: September 15, 2023
Decision Date: October 15, 2023

The conference will be held online

Working languages: Russian, English

We invite teachers of schools, universities, organizations of additional professional education, developers of electronic courses, researchers and specialists in the field of general, professional and electronic education and digital didactics; managers, teachers, methodologists of organizations of all levels of education; developers of digital educational products, tools and services; representatives of commercial firms interested in promotion of digital software products for education.

As part of the conference, it is planned to hold master classes on hot topics related to the digitalization of education at all levels.

According to the results of the Conference, all the accepted papers will be included in Conference Paper Proceedings – 2023 and published by Moscow State University of Psychology & Education (available at Russian Scientific Electronic Library eLIBRARY.RU and the Portal of Russian Psychological Publications PsyJournals.ru) in December 2023.

Objectives of the conference

- identification of promising areas for interdisciplinary analysis of opportunities, tools, models of liberal arts education in a digital environment and intelligent technologies
- analysis of psychological and pedagogical aspects of online learning
- identification of opportunities and prospects for the development of the information and educational environment of an inclusive university and a school for students with special educational needs
- disclosure of new opportunities, features and risks of the Internet as a field of communication and interaction between adolescents, youth, middle-aged and older people, identification of directions and methods of risk prevention

Conference Planned sections

- **Section 1.** Digital Transformation and Online Education: Technologies, Tools & Models

19. Development of digital competencies in preschool age

Application Procedure

Participation possibilities:

- with a report and publication
- only with a report (without publication)
- publication of the text of the report (without a report)
- listener (without report and publication)

Applications for participation are required to submit through the registration form on the conference website http://dhconference.mgppu.ru/2023_en:

- deadline for application for oral presentation and(or) paper publication – **September 15, 2023**
- deadline for conference participation as listener – **November 14, 2023**

Participants of the conference, who only intend to make a report, have to announce the abstracts of their speech. Requirements for abstracts can be downloaded here ([link to download requirements](#)).

The participants of the conference, assuming either only the publication of the text of the report, or a speech with the publication of the text of the report, provide the full texts of the reports. Reports submitted for publication must contain original, unpublished research results. The submitted texts must correspond to the conference topic and present materials that have not been previously published in Russian and other languages and are not under consideration in other publications. The originality of the text should be at least 70%, according to the results of verification using the "AntiPlagiat.VUZ" system. When selecting materials, priority will be given to presenting the results of empirical research.

The Program Committee reserves the right to select texts for publication, as well as the right to reject materials that do not correspond to the topics and directions of the conference, the rules of registration, and received later than September 15, 2023. The Program Committee reserves the right to edit your texts.

Requirements paper text formatting

1. File name should contain the number of session and first author last name: `session_number_first_author_last_name`, for example: «1_Smith.docx».
2. The text must be in MS Word format in the style file of the conference proceedings in Russian ([Download Rus](#)) or in English ([Download Eng](#)). All formatting requirements are presented in the style files.

Conference registration

Participation in the conference and publication of conference materials are free.
